Association of Independent Trade Unions (ASO), Tyršova 1811/6, 120
00 Praha 2, www.odbory.info, www.asocr.cz,
e-mail: info@ospzv-aso.cz

Implementation of project

„The Future of Work and a New Collective Bargaining Strategy in the Future of Digitalization and the Revolution of Skills“

2018

The project is financed by the government of the Czech Republic under § 320a of the Labor Code to promote social dialogue.

Project goals are:

- 1. Preparation of employees for impacts on labour due to digitalization and changes in collective bargaining and educational system**
- 2. Prevention of long term unemployment and new job opportunities on the labour market due to technological changes**
- 3. Increasing the digital literacy of employees**

4. Increasing the minimum wage as a tool of fighting job polarization
5. Ensuring information support to motivate employees for further education
6. Means of increasing formal and informal qualifications for senior employees
7. Trade Union's Strategies in digital era

7 expert studies:

1. Regulating the impact of technological change on labour demand
2. The role of the minimum wage in the 4th industrial revolution
3. Providing informational support in order to increase motivation of employees to participate in further education

4. Preventing the long-term unemployment and new working positions in the labour market due to technological changes, all in respect to disadvantaged groups of employees

5. Increasing the digital literacy of employees

6. Analysis of barriers in employing persons released from imprisonment in the labour market and possibilities to employ them; influence and support of social dialogue

7. Possibilities of raising formal and informal qualification and skills in older age and possibilities of systematic information and counseling support

**ASO invites project promoters and partners
at an international conference to present project
outputs**

**Social dialogue as a prevention of society polarization
and a tool to work with human capital at the time of
digitalization and robotization**

**to be held
on 13-15 November 2019 in Prague.**

Thank you for your attention.
